

Changing Default Printer/Warehouse in CSD

1. To change your default printer, go to the Search bar in the top right and Type in ZUSER and click on ZUSER - ZUSER:

2. In ZUSER, check the box to the left of the report titles ZUSERTMP first and then click Copy > One Time:

3. Click  on the first screen that comes up.
4. On the next screen, enter your 4-digit user ID in option 3. If you would like to change your Warehouse, you can change option 4 to Yes and choose the new default warehouse. If you would like to change your default printer, you can change option 6 to yes, then click Printer Options:
